Publishing ethics

Researchers should conduct their research from research proposal to publication in line with best practices and codes of conduct of relevant professional bodies and/or national and international regulatory bodies. In rare cases it is possible that ethical issues or misconduct could be encountered in your journal when research is submitted for publication.

▼ Springer's Guide on Publishing Ethics

In order to safeguard the quality of its publications, Springer has updated the policy on Publishing Ethics. In line with the philosophy of the Committee on Publishing Ethics (COPE) we follow the principle that we have a prime duty to maintain the integrity of the scientific record. By providing Springer's Guide on Publishing Ethics, we aim to optimally assist Springer Publishing Editors as well as Editors-in-Chief, Editors, Reviewers and Authors with this task.

Please find the complete document on Publishing Ethics here.
